Ratchet lever hoist **Series A**

# Yale **UNOplus** Series A *new!*

The *UNOplus-Series A* ratchet lever hoist is the result of further technical development of the *UNOplus*, which has proven itself over many years.

The versatile tool for lifting, pulling and securing of loads is characterised by its compact design, robust stamped steel construction and the smoothly running free chaining device. The further reduced weight optimizes operation, makes the application even more comfortable and the *UNOplus-Series A* to a convenient, versatile device.

## CAPACITIES 750 - 6000 KG

---

### BENEFITS & FEATURES

#### EASY TO USE

Due to optimized gearing and improved bearings in the housing cover a minimum effort is required to operate the short hand lever.

#### RUGGED DESIGN

Impact resistant stamped steel frame and gear cover withstands repeated rigorous use.

#### LOAD PRESSURE BRAKE

Even today, the load pressure brake, based on the principle of Thomas Weston's patent of 1875, is still used in our manual hoists.

#### EASY & SMOOTH FREE CHAINING

For quick take up and positioning of slack chain – even with one hand. Designed not to accidentally free chain while under load. Cast chain end stop allows the user to easily position the chain in free-chaining mode and prevents it from entering the liftwheel and jamming the hoist.

#### RELIABLE LOAD GUIDANCE

The load chain runs in the load sheave and is secured against unintentional slipping by the closed chain guide.

#### NON SLIP RUBBER HANDLE GRIP

Comfortable rubber grip provides for extra protection against slippage.

#### CORROSION PROTECTION

Robust chain guide, chain stripper and parts of the brake are zinc-plated and yellow-chromated for corrosion protection.

#### EASY-TO-INSPECT SWIVEL HOOKS

Bolt on hooks with nyloc nuts simplify the inspection process. Hooks are forged, allowing them to yield under overload without breaking. Cast safety latches provide positive and secure load engagement.

## Technical data *UNOplus-A*

Model	Art.-No.	Capacity kg	Number of chain falls	Chain dimensions d x p mm	Lift with one full lever turn mm	Handle pull at WLL daN	Weight at standard lift (1.5 m) kg
